A simple and secure process

What sets CertifiO ID apart?

Control

Up to 19 automated checks, combined with centralized administrative governance.

Performance

Reduced internal and external friction and faster case processing.

Security & Sovereignty

Developed and hosted in Quebec on infrastructure designed for regulated organizations.

Compliance by design

CertifiO ID is designed to support organizations with stringent compliance and data protection requirements.

Aligned with recognized frameworks, including:

- FINTRAC
- PIPEDA
- FAFT
- Pan-Canadian Trust Framework (PCTF)
- Law 25 (Quebec)

Expertise Rooted in a Trusted Ecosystem

CertifiO ID is part of a specialized technology environment focused on digital identity, electronic signatures, and digital trust infrastructure.

The solution leverages recognized expertise in security, compliance, and document traceability.
